**Digital Solutions that Empower Business**

## WHAT IS LOOPED FUSION™

Looped Fusion is Looped Solutions' principal B2B offering, empowering effective communication and collaboration between service providers and their clients by merging a collection of features specifically designed to ignite connection and engagement.

With Looped Fusion, you can select from a set of features tailored to meet the needs of your clients. Plus, you have the flexibility to connect through either the Looped Fusion mobile app or Fusion Web (desktop/laptop access). For organizations that are looking for tailored solutions, the Looped Fusion White Label Bundle provides customized options that close the loop on helping to achieve your goals.

## LOOPED FUSION WHITE LABEL BUNDLE

Our Looped Fusion White Label Bundle provides a customized app available on iOS, Android, and web using Looped Fusion features and functionality while also offering a menu of functionality and features specifically designed to address the needs of your clients or customers. Our development team will collaborate with you on the custom design of your company's own branded mobile or cross-platform solution. This innovative approach allows you to custom design your branded solution using our built-in menu of features, together with the addition of customization to meet your strategic goals.

### WHITE LABEL BUNDLE BENEFITS:

Increases visibility and grows awareness for your organization

Branded app available for download in the app stores - Google Play and App Store
